

## Places You're Most Likely to Get Coronavirus

The Texas Medical Association ranked many activities—from opening your mail to going to a bar—by their risk level. The levels are based on input from the physician members of the task force and the committee, assuming that participants were taking maximum safety precautions, including social distancing, wearing a mask, and practicing hand hygiene. Discover the riskiness of every activity, ranked from least -risk level 1 to most -risk level 9.
